## Coverpage for Geological Report

According to the rules of BMP the licensee must forward a geological report. This cover follows the geological report. The cover, abstract and the report shall be forwarded to BMP in two hard copies and one electronic version no later than April 1<sup>st</sup> the following calendar year. Unprocessed data shall be submitted to BMP as both paper and electronic copies. The format of the electronic data shall be agreed with BMP

The geological report is the status/field report covering objectives, activities, results, conclusions and recommendations for the licenced area. As stated in “Rules for field work and reporting regarding mineral resources (excluding hydrocarbons) in Greenland” sec. 7.03 a geological report must contain the following:

- a. The length of the field season and numbers of participants
- b. Working methods (sampling methods, analytical techniques with detection limits and name of laboratory, geophysical methods, statistical procedures, drilling methods, etc.)
- c. Positioning and marking in the terrain of fix points for local reference systems
- d. Topographic maps of the investigated areas
- e. Geological maps
- f. Sample maps
- g. Geophysical maps
- h. Sample list
- i. Drill log
- j. All raw data (chemical values, geophysical values, etc.)
