Application for approval of blasting operation

According to the standard terms for prospecting and exploration licences for minerals blasting operations require a specific approval by the Bureau of Minerals and Petroleum (BMP) before the activities commence.

All sections of this application form must be completed. If the space allotted is too limited an addendum may be enclosed.

A topographic map shall be enclosed on a suitable scale clearly showing approximate positions of the planned blasting activities. Also a copy of blasters approval to carry out blasting in Greenland shall be enclosed.

The application shall be submitted to BMP.
