Application for approval of diamond drilling

According to the standard terms for prospecting and exploration licences for minerals drilling with non-handheld equipment requires a specific approval by the Bureau of Minerals and Petroleum (BMP) before the activities commence.

All sections of this application form must be completed. If the space allotted is too limited an addendum may be enclosed.

A topographic map shall be enclosed on a suitable scale clearly showing approximate positions of the planned drilling activities. Also a log for drill core description shall be enclosed.

The application shall be submitted to BMP.
